W. H. Harvey Representative For Kinderley Riding

W. H. Harvey, of Flaxcombe, was on Friday, November 14, elected by acclamation to represent Kinderley in the Saskatoon legislature. The new M.L.A. elect was nominated on Friday of last week by farmers of the riding. His candidature was later endorsed by the Liberals. The Conservatives did not nominate a candidate, so an election was unnecessary. The new member takes the seat vacated by Hon. W. H. Motherwell.

J. Boss, expected to leave this week for Washington, D.C.

"The Danger Mark"

The theme of "The Danger Mark," written by Robert W. Chambers, the well-known novelist, deals with heredity and it offers a subject of deep study to all who are interested therein. The picture of the same name, starring Elsie Ferguson, shows how a beautiful young woman, who has inherited an irresistible desire to drink from a dissipated ancestor, reclaims herself and casts off her chains. Miss Ferguson plays the stellar role and in her support are screen players of the highest ability.

Harry, of the Princess Confectionery, left on Tuesday morning for a two weeks holiday trip to Chicago.

Local Subscription to Victory Loan, \$55,150

Express Over-subscribes Quota By \$20,150

The result of our district's total subscription to the Victory Loan has surprised the most sanguine. With bad weather prevalent, and country solicitation almost impossible, and much crop under the snow, the selling of \$35,000 worth of Victory Loan bonds seemed to be a proposition that was not reasonable. However, not only was this sum realised, but the allotment was exceeded, and the total subscription is \$55,150. This is over a third of the allotment for the whole district, from Bassano to Empress (\$150,000)—Empress being a sub-district or division. The local committee and residents of town and district have much cause for congratulation. The Prince of Wales' honor flag, carrying two crests, is now on display in the Municipal Office window, and everybody is well pleased. When all returns are in from the various parts of the Dominion to the central office at Ottawa, it is expected that subscriptions to the loan for the Dominion, will total over \$73,000,000. The majority of towns and districts exerted themselves to outdo previous efforts, and the immense total subscribed will be a surprise to the world at large. It is pleasing indeed to know that Empress was not a laggard in this effort, and doubly so to those who subscribed and helped in the splendid local success.

Would Build Skating Rink

D. Aston informs us that he is endeavoring to get a public open-air skating rink here this winter. In order to obtain sufficient money for this enterprise, he is seeking signatures of those who will guarantee to purchase season tickets. He reports the securing of over forty signatures.

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada, for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses the amount of nourishment that made with any other.

Encourage The Boys

Farmers who are the fathers of boys who are beginning to show some signs of restlessness on the farm, and an inclination to break away to the cities or some faraway pasture which looks so green to them, should not be slow to seize the opportunity presented by the industrial unrest in all the larger centres of population and impress upon the boys the many advantages which farm life has over city life.

Life in our modern cities has degenerated in the case of tens of thousands of men and women into a struggle to make ends meet, to live on a bare minimum of the comforts, deprivations and pleasures of life without going into debt, to feed, clothe and educate their children and at the same time accumulate a little something against approaching old age.

To other tens of thousands, city life has come to mean so many hours of toil in office, store or factory in order to obtain the wherewithal to live and as much more as possible to spend in dissipation and pleasure. City life is warping the nature and destroying the character of these young people, and when it is too late they realize in bitterness of spirit that they have missed the true and beautiful things of life.

Nevertheless, city life has wonderful attractions for youth. It would be foolish and a mistake to shut the eyes to that fact, or to attempt to minimize it. Men and women, youths and maidens, are social beings. They long for friendships and comrades. Their very natures demand recreation and happiness. All work and no play makes Jack a dull boy, and a dull existence is never a happy or contented one.

It behooves the farmer who has boys at home not to be too sported in his farm as to forget that he himself was a boy once and had a boy's longings. He should ever strive to retain and understand his boy's feelings, and create conditions on the farm and in the farm home that will lead to contentment and not discontent on the boy's part.

The average boy will be satisfied and take an ever-growing interest in the farm if he is given an opportunity where by his own efforts and work, and by taking an active interest in the farm, he can accumulate something that he can call his own. It would seem to be wise, therefore, to, as early as possible in a boy's life, allot him a piece of land to be worked by him and the profits from the produce of which will belong to him. Or give him a calf, a pig, a cow or two, or some poultry, to be his own property and his special care, and the increase from which is his.

And as the boy grows in years and strength, and begins to take the place of a man on the farm, he should be treated as a man and paid the rewards of his labor as any other man would be, and not be expected to work merely for his board, clothes and lodging.

What about the children's health?

Grape-Nuts

food helps wonderfully toward a successful answer. Your grocer sells it.

The farmer-father who forgets the aspirations he himself had as a boy and youth, and who keeps his sons working for him with little or no opportunity to better their own condition and accumulate something for themselves, is providing not only an excuse, but a strong inducement, to the boys to leave the farm home and strike out for themselves elsewhere, too frequently, alas, away from the land altogether and in the less natural and satisfactory life of the cities.

Stores of examples can be recalled where farmers with sons so failed to understand the psychology of youth that when they themselves approached middle and old age not one of their boys were to be found with them on the land, all had drifted away into professions, or business, or become clerks and workers among the masses in the cities. Had these boys been given the chance at home, which they saw for themselves away from home in a word, had they been afforded an opportunity to do something for themselves, many would have been happy and content to remain on the land. And all would have been better off.

In Western Canada, in particular, where it is so difficult to obtain sufficient and reliable farm help, farmers should exert themselves to the utmost to retain the services of the best and most experienced of all such help, namely, their own boys and brought up on the land. It can be done by a little encouragement and the providing of an incentive such as the boys find elsewhere.

And in the years to come, as old age creeps on, the farmer-father will find his reward, and a great and substantial one it will be, while as they grow up in manhood in the independent life of the farm and away from the stress and strain and worry and more intense struggle of the cities, the boys themselves will be happy and thankful. And in the larger sense, the whole nation will gain and be socially and economically benefited.

If some men were to accuse themselves of being liars, lots of their acquaintances would believe them.

The U.S. Bomb Outrages

Criminally Minded Think to Accomplish Their Purposes By Killing

"When the governments of the world have been preaching force without aim for five years as the means of accomplishing their aims and desires, it is not surprising that unbalanced or criminally minded individuals should likewise think to accomplish their purposes by killing and destruction. The fresh bomb outrages are the most unpalatable illustration possible of the hatred that the way to achieve reform is to use violence. There is no place in America for terrorism of this sort, and not the slightest need of it; for the Anglo-Saxon way of altering social and political institutions by free debate and discussion remains the only sound and safe one. What these fanatical bomb throwers will accomplish in a long time has yet to be seen, but the restrictions on immigration, the immediate passage of severe restrictive and reactionary legislation at Washington and the strengthening of the hands of visionless legislators. — The New York Nation.

Famous Monument Left Unscathed

May Have Found Special Favor In The Militant German's Eyes

London, England.—There is still, near Brussels, a monument to the great Englishman and martyr, William Tyndale, translator of the Bible. On its low flat base are inscriptions in English, French and Flemish, and the German invaders of Belgium, with their known propensity for vandalism, have had ample opportunity during four years of occupation to damage or remove the monument.

On the other hand, Tyndale, by virtue of his peculiar association with Germany, may have found special favor in the militant German's eyes. William Tyndale was a native of Gloucester, but his sympathy with the new learning aroused suspicion, and he removed to London. Finding it, however, impossible to complete his translation of the New Testament and the Pentateuch, upon which his fame with posterity rests, he removed to Hamburg and later to Cologne, and hence became identified with the Continent. He began his printing in 1526 in the very city which now forms the headquarters of the British army of occupation on the Rhine.

Following the signing of the armistice, inquiry was set on foot to ascertain that it shows no signs of material injury. Owing, however, to the absence of any protecting fence, the inscriptions, which were lightly cut, have become very indistinct and may have to be cleaned and repainted.

Budget of Russian Soviet Government

Copenhagen, Denmark.—A Helsinki message states that the Russian Soviet Government's budget for the first half of 1919, which was recently adopted, estimates the revenue at 20,000,000,000 rubles, and the expenditure at \$30,000,000,000. It was resolved to cover the deficiency by a new issue of paper money.

New Order of Life Foreseen

King George Declares That A Victory In Peace Can Only Be Won By Universal Co-Operation

Leicester, England.—The King and Queen arrived in Leicester recently on one of the many visits to industrial areas contemplated by their majesties. In acknowledging the address of the townspeople, the King said: "In all our historic past we have experienced such times of strain and stress as during the last five years, but by the blessing of God and the united efforts of our people, we have won victory. To build upon the foundation of the past, a new order for our common life must be our task for the future. We may preserve our strength and renew those ideals of liberty and peace which we have fought. Only by unselfish cooperation of all classes can we win a victory in peace as we have in war."

Finally the King expressed a desire to join with the people in the work of peace as they had shared the anxieties in war.

Why suffer from corns when they can be prevented rooted out by using Holloway's Corn Cure.

Plan To Benefit Fishermen

London, England.—The Admiralty have under consideration a project to benefit fishermen who served in the navy. It is proposed to form a commercial company in which fishermen will be shareholders. The Treasury will be called upon to lend the money necessary to start the business and 400 trawlers and drifters built by the Admiralty during the war for mine-clearing and patrol work will be handed over to the fishermen as part of the enterprise. There is no intention of competing with other companies and the Admiralty does not propose to make any profit out of the scheme.

The Cheerful Giver

The father of a St. Louis lad had given him a ten-cent plate and quarter, telling him that he might put one or the other on the church contribution plate. At dinner the father asked the boy which he would had given. "Well, father," responded the lad, "at first it seemed as though I ought to put a quarter on the plate, but in time I remembered the saying: 'The Lord loveth a cheerful giver,' and I knew I could give the ten-cent piece a great deal more cheerfully, so I put that in."

Attorneys to Assail I.W.W. Agitators of Wheat Belt

Kansas City.—County attorneys in the Kansas wheat belt will meet at Hutchinson, Kansas, to combat the I.W.W. agitators reported active in that section of the state. Further reports that the wobbles are "jangling up" (mobilizing) continued to reach the office of U.S. Attorney Robertson here.

The agitators are avoiding the cities and gathering in small ground holdings, meeting in the woods, where they plan their campaign. So far no acts of violence have been reported, but Attorney-General Hopkins has issued instructions to all local officials throughout the state relative to handling agitators.

Tammany Against Bolshevism

New York, N.Y.—Tammany has now come out against bolshevism. On Charles F. Murphy's motion, the executive committee has adopted a resolution denouncing the organization to the "active and energetic conduct of a non-partisan campaign for America and American institutions," and all democratic headquarters will be asked to promote this end, under direction of a special committee. "Tammany declares that the Bolshevists are a menace to the peace and stability of the world, and that they are a threat to the life of the nation. It is the duty of every citizen to stand up for the rights of the people and to oppose the rule of the few."

Tourists In New Zealand

Auckland, N.Z.—With the coming of the winter season of overseas visitors is again rejoicing the hearts of New Zealand tourists officials. American travellers are in the majority, but it is expected that a large number of British officers will visit New Zealand's thermal regions and will enjoy the Dominion lakes and streams.

Germany carefully inspecting the Allied peace terms must imagine she is in the position of the man who has a Manitoba hotel thirty years ago. China—Rich, Yet Helpless

No man has computed them. There is enough coal in the one province of Shanxi to last the entire world for some hundreds of years. China has also great iron mines. The copper mines of Cechwan and Yunnan are also rich and may make China the greatest copper producing nation in the world. She is now producing a large amount of antimony. There are possibilities of gold and silver in North China and in the mountains of Eastern Tibet.

There are even unheard of possibilities in Chinese agriculture. Their land is constantly enriched by irrigation, and after 5000 years the Chinese farms still average from two to four crops a year.—World Outlook.

Less War Drunkenness

London.—Convictions for drunkenness in England and Wales have decreased in past four years under the operations of the liquor control board, according to its announcement. The board states that convictions of men and boys in 1915 were 35,000, in 1918, 6,990. In the same period convictions of women decreased from 15,915 to 3,211.

THURSDAY, Nov. 20, 1919

The Hon. S. F. Tolmie, Can-
ada's new Minister of Agricul-
ture, has summed up the out-
standing facts of Canada's agri-
cultural position in an article
appearing in the November
number of the Agricultural
Gazette. He presents statistics
showing the growth of Canada's
financial burden during the
past five years, and points out
means by which our national
debt will be reduced. He says
in part, "I am confident that
this Dominion, through the de-
velopment of her natural re-
sources, will in time wipe out
her debt. Forests, fisheries and
mines all contribute their part
of the revenue but by far the
greatest returns will be derived
from agriculture which indus-
try we must continue to estab-
lish in permanency and increase
in magnitude. . . One of the
greatest responsibilities that
falls on either the federal or
provincial department of agri-
culture is the conservation of
the great wealth that lies in
the virgin soil. Innumerable
considerations are involved in

this one problem, but the whole
affair can be accomplished if
we engage in mixed farming
with live stock as a basis. This
is the fundamental principle
underlying success in agricul-
ture."

Record Drought in Australia

London, Nov. 19.—Australia,
especially New South Wales,
is suffering the most devastat-
ing drought since white men
have resided in that country,
even the drought of 1902 being
surpassed according to a Syd-
ney dispatch to the Daily Mail.

Stock and crops have been
destroyed and it is doubtful
whether there will be enough
seed wheat for next season's
sowing. Hundreds and per-
haps thousands of settlers have
been ruined. Northwestern
New South Wales is described
as a desert, being stripped of
everything green. Paddocks
are littered with the skeletons
of cattle, and even rabbits are
dying in vast numbers.

that an alteration was made in
the Acme-Empress survey, and
that the road will follow a
more southerly route than was
previously intended.

The Coal Situation

November 6, 1919
To the Public:—
Owing to the Coal Strike
lasting from April first until
August fifteenth last, also to
our shortage, labor shortage,
and the inclement weather
which we have been experience
ing of late, we regret to advise
that there is bound to be a very
severe coal shortage.

We are taking this opportu-
nity of doing everything we can
to get coal. We have a repre-
sentative in the Drumheller
district, who is spending his en-
tire time among the coal mines.
We have also a special repre-
sentative looking after the trac-
ing of all cars and notwith-
standing this and our connec-
tion with coal operators and
wholesalers we are unable to get
over twenty per cent of our re-
quirements.

We have, in order to try to
get an adequate supply, pur-
chased a number of cars of
Eastern Coal which we hope
will be delivered in the near
future.

This coal will cost more
money, but we feel in view of
the serious situation we must
try and protect the community.

We wish to assure you of our
good intention to serve you to
the best of our ability and we
would advise you to stock up
your winter requirements with
any kind of Coal you can get.
Yours truly,

Above is shown the new, made-in-Canada Overland 4. It is being manufactured at Toronto by Willys-Overland Limited, who announce that production on a quantity basis has now been reached.

The chassis is illustrated along with the finished touring car model, because of its radical departure in spring suspension. It will be seen from the drawing that the "springbase" exceeds the wheelbase by 30 inches. This exclusive "three-point" principle is the basis of

the manufacturers' claim that the springs of Overland 4 give a riding comfort in a light car of the economical short wheelbase.

Willys-Overland Limited claim that this new Spring suspension has been subjected to the most rigorous, mechanical, laboratory, and road tests that engineers have ever devised, including 250,000 miles of road testing. The hill-climbing scene above was taken in Hell Canyon, near Albuquerque, New Mexico.

Tested 250,000 Miles Three-Point Suspension Springs Greatest Improvement Since Pneumatic Tires

OVERLAND 4 has been tested as no car has ever been tested before. 250,000 miles of mountain trails, desert sand, heat, cold, mud and dust demonstrated the quality of every part of the car long before we began manufacturing.

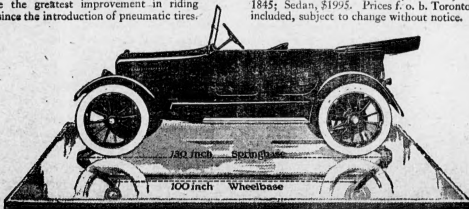

This remarkable test showed conclusively that Three-Point Suspension Springs, exclusive with Overland, are the greatest improvement in riding comfort since the introduction of pneumatic tires.

Diagonal attachment of the Three-Point Springs at both ends of a 130-inch Springbase gives the road steadiness of the heavy car of long wheelbase.

Equipment is complete from Auto-Lite Starting and Lighting System to Dismountable Rims.

Italian Cabinet Has Resigned

New York.—The Associated Press wires say following:

Failing to secure a vote of confidence in the chamber of deputies in Rome, on a demand by Premier Orlando that the chamber in secret session listen to the government's explanation of its foreign policy, the Italian cabinet resigned.

This action probably will still further complicate the work of the peace conference, especially in straightening out the tangle that long has existed as regards Italy's claims to Fiume and the Dalmatian coastal regions.

The vote of lack of confidence in the government was an overwhelming one, being 239 to 78. Prior to the vote, the Premier in a statement to the chamber had announced that the various economic and financial questions concerning Italy had been solved or were about to be solved.

Rome.—The Italian government has resigned, following an adverse vote against it in the chamber of deputies.

Premier Orlando, in announcing his resignation and that of the cabinet, said King Victor Emmanuel had received decision as to the peace conference.

Prior to the vote, Premier Orlando, in addressing the chamber of deputies, said:

"Italy's peace with Germany and Austria has been solved in a manner with which, on the whole, I feel satisfied."

Insisting on the technicality of a secret session, the premier declared that the government needed greater confidence and would not ask its mission for a secret session as a question of confidence. The Socialists immediately opposed this.

Super Orlando, in his address, said Italy's position had been considerably aggravated by international events during the second term of office. He referred to President Wilson's speech regarding the Adriatic.

The Italian delegation at the peace conference, the Premier said, has followed this policy:

"First—maintain with firmness all the essential points of the Italian claims. Without which Italy is convinced peace will be neither just nor adequate to the immense sacrifices suffered."

"Second—Remain faithful in our duties toward the Allies.

"Third—Avoid an allied form of obstinacy. Indulgent, flexible, conciliatory suggestions capable of producing accord in the conference over the problems concerning Italian frontiers."

Premier Borden stays at Home Ottawa.—The situation with regard to the Canadian plenipotentiaries to the peace conference as it is known in Ottawa is that the Premier, Sir Robert Borden, is not expected to attend the conference at Paris. Sir George Foster is returning to Canada on account of the serious illness of his wife. Hon. A. L. Sifton is leaving Halifax to attend further sittings of the peace conference. This means that Hon. A. L. Sifton and Hon. C. D. Howe will be the signatories of the peace treaty on behalf of Canada, and that the draft will have to be further amended.

Lord Northcliffe III London.—Viscount Northcliffe, newspaper owner, underwent an operation. His condition is satisfactory.

Ending Of Prohibition When Peace Signed

Ottawa.—That orders-in-council prohibiting the importation, manufacture and transportation of intoxicating liquor shall terminate with the signing of peace, was the constitutional point raised on second reading, but by section 121 of the B.N.A. act, interprovincial trade could not be interfered with.

As a preliminary to taking up an bill, Sir James Loughheed read an opinion from the department of justice given on the constitutional aspect of the question.

The amendment carried by 34 to 24, after a number of speeches, chiefly dealing with the constitutional point raised on second reading, but by section 121 of the B.N.A. act, interprovincial trade could not be interfered with.

As a preliminary to taking up an bill, Sir James Loughheed read an opinion from the department of justice given on the constitutional aspect of the question.

Cannot Dely The Law

Defence of Arrest at Winnipeg Given At Various Labor Men

Ottawa.—In reply to a telegram from Secretary Hamilton of the Toronto Metal Trades Council, with regard to the arrests of the Winnipeg strikers, Premier Borden sent the following message:

"The persons arrested in Winnipeg have been charged with acts which, under the laws of this country, are serious offences. The government intends to maintain the law and to prevent and punish any attempt to subvert the authority of the people as established by their representatives in parliament. Your assertion that the government has been animated by a desire to assist the employing class or to injure the labor movement is absolutely contrary to the fact. No man in this country, whether employer or employee, is above the law, nor can any such person be permitted to defy the authority of the people as a whole."

Messages of like tenor have been sent to H. Knudsen, secretary of the strike committee at New Westminster, and W. Craig, secretary of the trades and labor council at Brandon, who also sent telegrams of protest to the Premier.

Strike Is Now Nearer Settlement

Arrested Labor Leaders Given Bail and Will Have Fair Trial

Winnipeg.—Aldermen E. Robinson, secretary of the strike committee, has issued a statement indicating consideration of a possible early settlement of the strike.

William Ivens, R. B. Russell, Aldermen A. A. Hays and Alderman John Queen, who were arrested with six others on a charge of seditious libel and taken to Stony Mountain penitentiary, were released on bail of \$2,000 each. It is stated that they have given an undertaking not to take any further part in the present general strike.

As the following statement, issued under the signature of A. J. Andrews, K.C., representative of the department of justice, Ottawa, indicates, the authorities have changed their policy with regard to the strike.

"The persons arrested at Winnipeg on Tuesday morning on charges involving seditious conspiracy."

"As representing the department of justice, in order that no citizen should have any cause to complain that the government was disposed to deny the law, a fair trial by jury if they so desire. I have decided to postpone any proceedings for their deportation until the charges against them have been tried."

Having said this, the department has decided to refrain from taking any further action, directly or indirectly, against the strike now in progress, and in view of the fact that there is a strong possibility, in view of the statement as to collective bargaining, issued by the metal trades employers, of the sympathetic strike being immediately called off."

The reason why the accused, until they are released, should be detained in custody, and accordingly I am consenting to their being admitted to bail on a sum of \$2,000 each."

"It is understood that these persons quite definitely that if they fail in their undertakings they will be immediately rearrested and placed in custody."

The six men who are being let out on bail will be tried in the civil courts at Winnipeg. The date for the trial will probably be June 25, but this depends upon whether counsel for the crown and the accused are quite prepared to proceed with the case at that time.

In the case of the men of alien birth who are being detained at Stony Mountain, they will likely come before an immigration board of inquiry, of which Thomas Gelles, acting commissioner of immigration in Winnipeg for the federal government, is now appointed chairman. This board will situate proceedings just yet, it was officially stated, it is the desire of the authorities to get the case from the viewpoint of the law, which the accused should be deported so that the minister of immigration, Hon. J. A. Calder, will have no occasion for upsetting the decision of the board.

Coast To Coast Flight

British Donates Big Airplane Fleet to the Dominion

Vancouver.—That the British government has donated to Canada, free of charge, 107 airplanes, is the news received by R. J. McLaren, Vancouver, from his son, Maj. Donald Rodrick McLaren, D.S.O. and bar, M.C. with two bars, French Legion of Honor and Croix de Guerre with palms. He is liaison officer with the Royal Air Force.

The Canadian Air Force is to attempt a flight from coast to coast, and the free gift of these machines will, it is believed, really the Dominion government to take steps to incorporate the Canadian air force as one of the permanent branches of defence.

Curtailling Liquor Supply

Physicians Have to Set Limit to Prescriptions in Alberta

Edmonton.—A limit of 100 liquor prescriptions a week from any one physician has been set by the attorney-general, pending a definite ruling to that effect from the council. Under the new scheme of strictly numbering prescriptions the doctors are required to return their prescription book stubs to department, and since the new scheme has been in operation for about two weeks, comparatively few returns have yet been made. In some of the cases, however, 100 prescriptions have been used up to such an extent and with such rapidity that the department has found it desirable to set a limit upon the number of prescriptions that will be accepted as legitimate.

Why We Claim to be Pioneers in the West

As a Western institution our Bank appeals particularly to the agricultural interests of the Prairie Provinces. Our first country branch was opened in 1869 and we have consistently followed a policy of extending our rural connections with the growth of settlement. We claim to have been of material assistance to agricultural communities in developing their resources, and in carrying them through poor crop seasons.
